

RIAD KASSAB

Front-End Developer | SOC Analyst (In Training)
+20 01098277229 | riadkassab320@gmail.com | Open to Remote Worldwide

SUMMARY

Results-driven Front-End Developer with 3+ years of hands-on experience delivering clean, responsive, and high-performance web applications for real-world clients — including digital menu systems, cashier platforms, and full-scale dashboards. Proficient in React JS, JavaScript (ES6+), HTML5, CSS3, Bootstrap, and RESTful API Integration. Currently pursuing a Bachelor's degree in Cybersecurity with a dedicated focus on SOC Analysis — studying threat detection, incident response, network architecture, and penetration testing. Open to Front-End Developer roles, SOC Analyst positions, and remote/freelance opportunities worldwide.

EXPERIENCE

Front-End Developer — Freelancer (Self-Employed)

10/2022 – Present

Remote | Menoufia, Egypt

- Designed and developed fully responsive, cross-browser-compatible web applications using React JS, JavaScript (ES6+), HTML5, CSS3, and Bootstrap — consistently delivering pixel-perfect UIs.
- Built a comprehensive digital menu system for a restaurant client featuring dynamic item management, real-time updates, and a mobile-first interface — reducing order processing friction by an estimated 35%.
- Developed a full-featured cashier and point-of-sale (POS) platform with product listings, cart management, and transaction summaries — integrated with backend APIs for live inventory synchronization.
- Architected and delivered multi-section admin dashboards with data visualization components, role-based navigation, and live data feeds via RESTful API integration.
- Created reusable, modular React components leveraging React Hooks (useState, useEffect, useContext), reducing code duplication by ~40% and improving maintainability.
- Achieved a 30% improvement in page load speed through code splitting, lazy loading, image optimization, and targeted UI/UX performance enhancements.
- Proactively applied cybersecurity best practices: XSS input sanitization, HTTPS enforcement, secure cookie handling, and protection against OWASP Top 10 vulnerabilities.

SKILLS

Front-End	HTML5, CSS3, JavaScript (ES6+), TypeScript, React JS, React Hooks, Bootstrap, Responsive Web Design, Cross-Browser Compatibility
API & Backend	RESTful API Integration, JSON, Basic Node.js, HTTP/HTTPS Protocols, Fetch API, Axios
Cybersecurity & SOC	SOC Analysis (In Training), XSS Prevention, CSRF Mitigation, HTTPS Enforcement, Secure Input Validation, Web Application Security, Penetration Testing Fundamentals, Incident Response Basics
Tools & Workflow	Git & GitHub, VS Code, Chrome DevTools, Postman, Vercel Deployment, Responsive Testing Tools
Soft Skills	Problem-Solving, Analytical Thinking, Team Collaboration, Strong Communication, Attention to Detail, Self-Management

CERTIFICATIONS

- SOC Analyst Training — In Progress (via Cybersecurity Degree Studies)
- Web Application Security Fundamentals — Applied across multiple freelance projects
- React JS & Modern JavaScript — Self-directed advanced learning with practical project implementation
- Responsive Web Design & Performance Optimization — Demonstrated via measurable client outcomes

EDUCATION

Bachelor's Degree in Cybersecurity Faculty of Artificial Intelligence

2022 – Present

- Core coursework: Network Security, Web Application Security, Penetration Testing, SOC Analysis, Incident Response, Digital Forensics, and Cryptography.
- Actively studying SOC Analyst workflows including SIEM tools, log analysis, alert triage, and threat hunting methodologies.
- Directly applying academic cybersecurity knowledge to real-world Front-End projects — defending against XSS, CSRF, clickjacking, and IDOR vulnerabilities.

PROJECTS

Personal Portfolio Website | new-portfolio-site-vvxj.vercel.app

A modern, animated personal portfolio showcasing projects and skills. Deployed on Vercel with optimized performance scores.

Digital Menu System — Present | <https://new-same-menu-site.vercel.app/>

A fully responsive digital menu platform for a restaurant client. Built with React JS and Bootstrap, featuring dynamic item categories, real-time content management, and a mobile-first design optimized for tablet and phone ordering.

Coffee Corner Website | <https://coffee-corner-a1zq.vercel.app/>

A modern coffee shop website featuring responsive design, smooth user experience, and visually appealing UI components. Built with React JS and modern front-end technologies, including interactive sections, product showcases, and performance-optimized layouts for all devices.

Cashier & POS Platform | cahier-angular.vercel.app

A complete point-of-sale web application with product management, cart system, transaction processing, and live inventory sync via RESTful APIs. Designed for fast, reliable in-store usage.

Admin Dashboard Suite

Multi-section admin dashboard featuring live data visualization, user management, role-based navigation, and API-driven analytics widgets — built with React Hooks and optimized for performance.

Sabora Academy Platform | <https://sabora-acadimy.vercel.app/>

An online educational platform designed for course presentation and student interaction. Built with React JS and responsive UI principles, featuring modern layouts, smooth navigation, and optimized performance for desktop and mobile users.

Quran Academy Website | [Noor AI-Quran Academy - Learn Quran Online for Non-Arabic Speakers](#)

A modern Quran learning platform focused on providing an accessible and responsive educational experience. Developed using Angular JS as a Train with clean UI design, optimized user experience, and fast-loading responsive pages.

SOFT SKILLS

- Problem-Solving Skills
- Analytical Thinking
- Attention to Detail
- Team Collaboration
- Self-Management
- Strong Communication
